

About Us

Everything changes when students begin to make decisions about their own education.

Ingenuity Hub, Personalized Learning Collaborative helps young people do just that.

In collaboration with each learner, we design individualized learning plans, or ePortfolios, based on their personal interests, experience and goals.

Traditional education is based on the idea that kids must be forced to learn a set of standardized, identical academic subjects.

For many kids, this sounds a lot like: "You all **MUST** learn these things because **WE** say so..."

This message is not very motivating for many kids.

Even the kids who get "good grades" are often simply going through the motions of learning, without getting anything important or lasting out of their time.

Our curriculum turns everything around.

It's simple really. Learning happens best when you decide what to learn, how to learn it, and why to learn it.

Summer Camp

*What do YOU want to do this
summer?*

What do YOU want to do this summer?

Summer is the Perfect Time to Explore Self-Directed Learning!

Summer vacation is supposed to be fun.

We think learning should be, too!

So why not do both?

Have fun this summer and be introduced to the benefits of self-directed learning.

SPECIAL OFFER:

ePortfolio - Design Your Own Curriculum:

Every camper will have the option of developing an outline for a self-directed learning ePortfolio.

This is something the student can keep and offers several potential benefits:

- ★ Helps make regular school work easier or more interesting.
- ★ Increases a sense of ownership and direction over learning.
- ★ Enhances a college application.
